What's Next After Zoom?

Charlie Fink Contributor

Consumer Tech

I'm a former tech executive covering VR, AR and new media for Forbes.

Virtual Reality (VR) allows collaboration between distant colleagues, simulating the feeling of being co-present in the same location. Its use in business consistently returns measurable improvements in training, often surprisingly so. For example, according to a recent [Harvard Business Review](#) article, VR reduced training time for Wal-Mart workers from eight hours to fifteen minutes.

A virtual boardroom in Virbela. Each avatar represents a unique remote user. [VIRBELA](#)

ue.germany VR meets AI!

Prof. Lauritz Lipp and Communication Design students created a virtual space for our students in Artificial Intelligence for a lecture on AI & Sustainability by Prof. Dr. Iris Lorscheid (@iris.view).

Students from both programmes met in the VR enviornment "FRAME" where Communication Design students prepared spaces for team challenges for the AI students. Our professors are always innovating and exploring new ways of teaching, interdisciplinary and learn more about VR. Take a look at some impressions from the class.

BEREITSTELLUNG UND BETRIEB EINES METAVERSUMS FÜR DAS M-D Z WERTNETZWERKE – TEILVORHABEN HAGEN

Drittmittelprojekt mit
Studiererenden aus den
Studiengängen User
Experience Design und Game
Design

5. Mai 2023

Interaktion im M DZ Metaversum

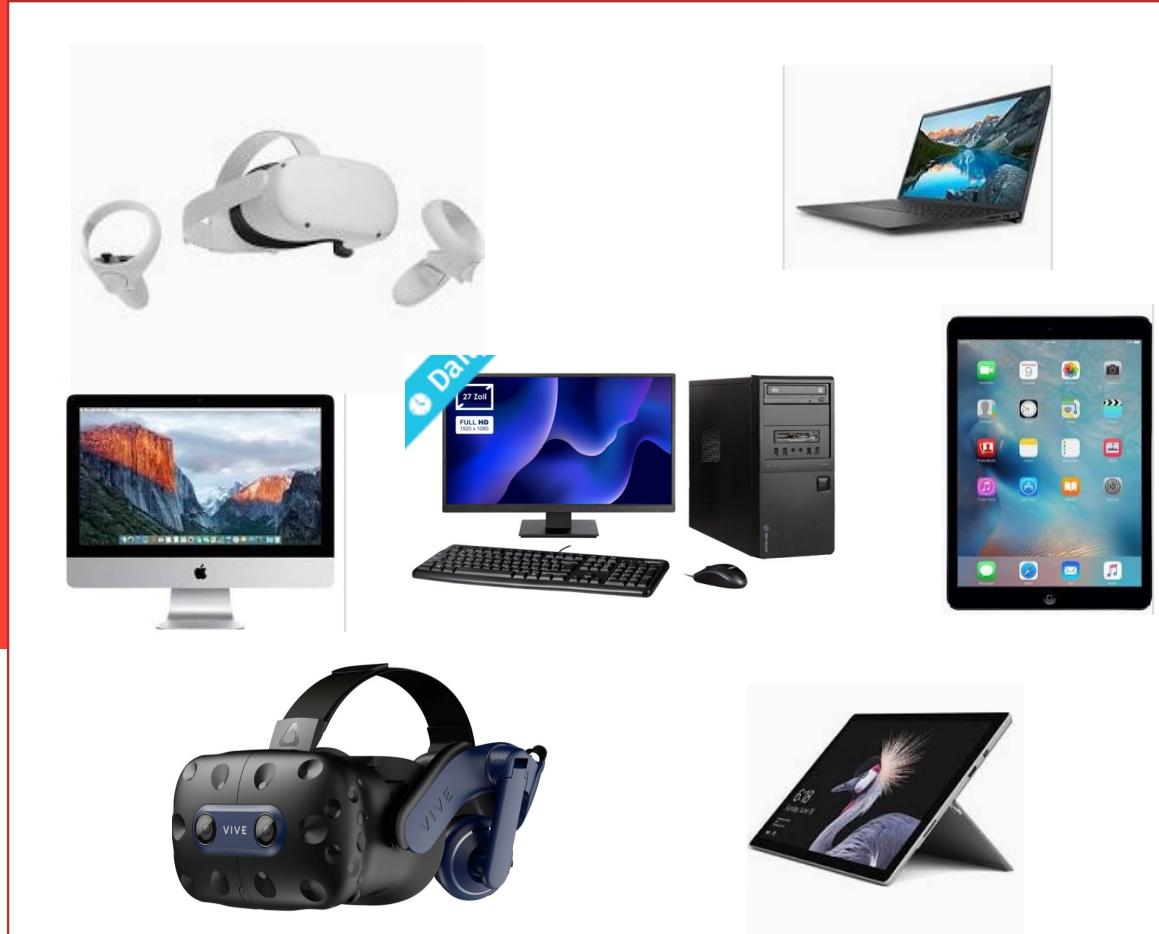

1. "normale" Konversationen unter Avataren
2. Avatar-Aussehen anpassen
3. Emotions
4. Einbindung von PDF Dokumenten, Integration von Video Integration, Bildschirm teilen

5. Mai 2023

Zugang zum M DZ Metaversum

1. VR Headsets (meta quest, HTV, ...)
2. Windows Laptop, PC
3. Apple MacBook, iMac
4. Tablet PC (Android, iOS)

Räumlichkeiten

Verschiedene, virtuelle Treffpunkte

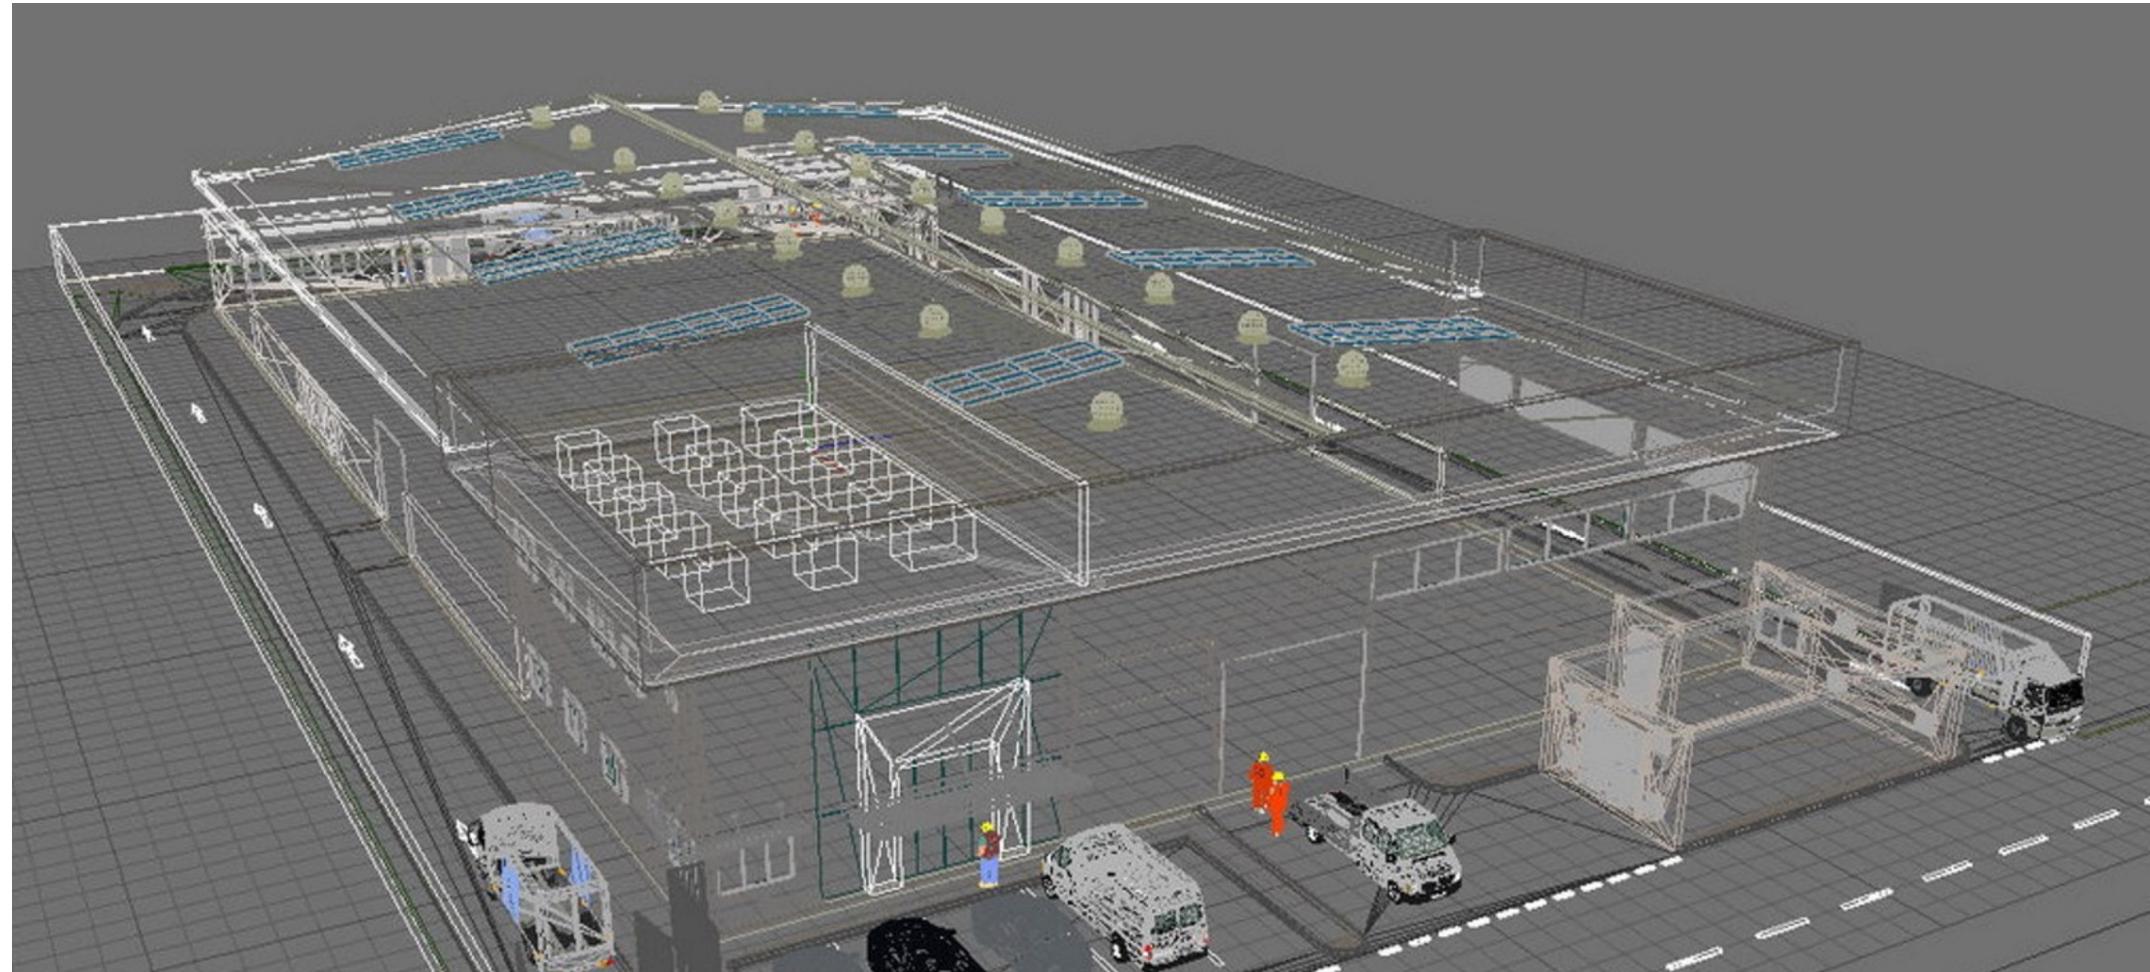

- Außenbereich
- Empfangsbereich
- Konferenzräume
- Lounge
- Ausstellungsfläche
- Fabrikhalle
- ..

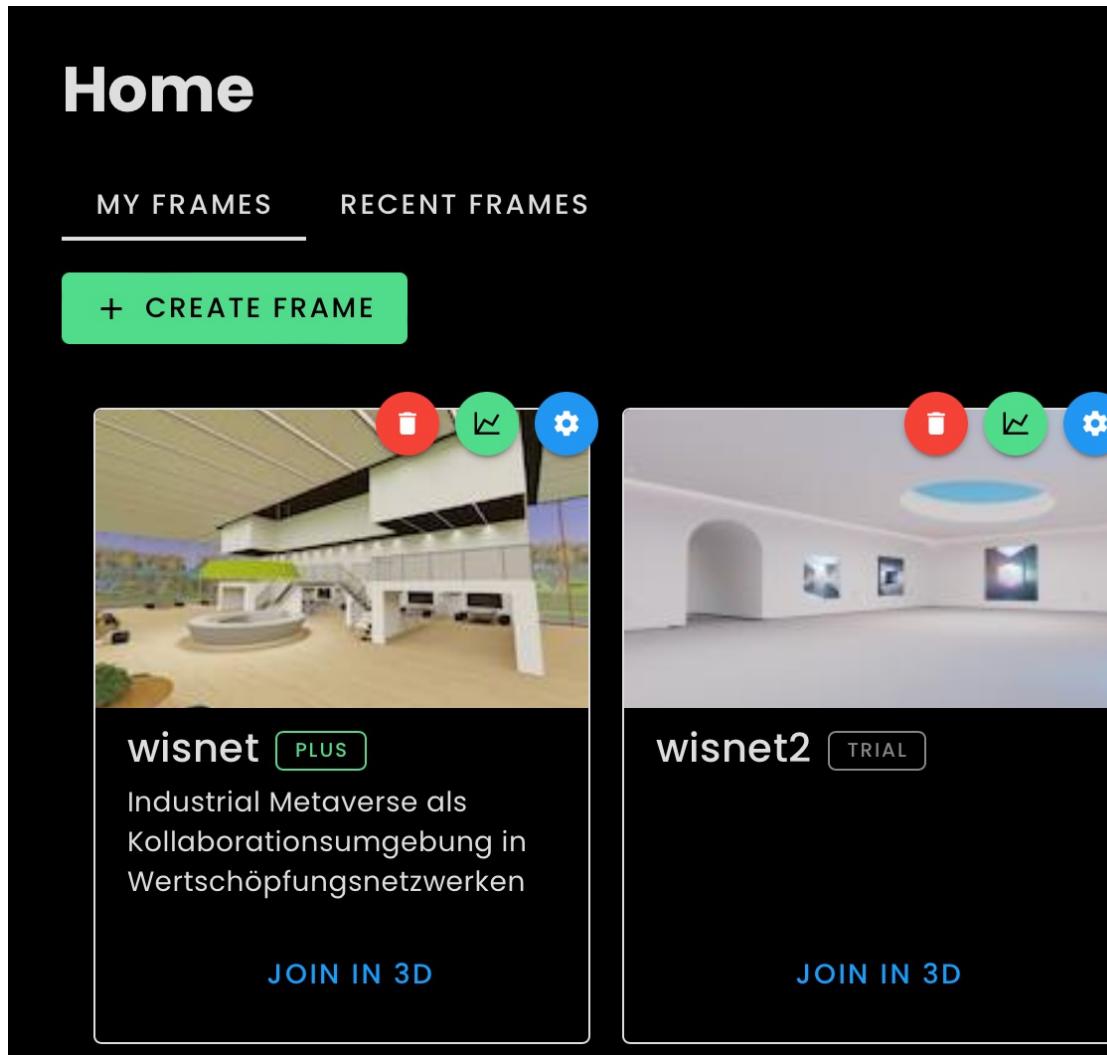

Phase 1a: Entwurf eines Geländes für das MDZ

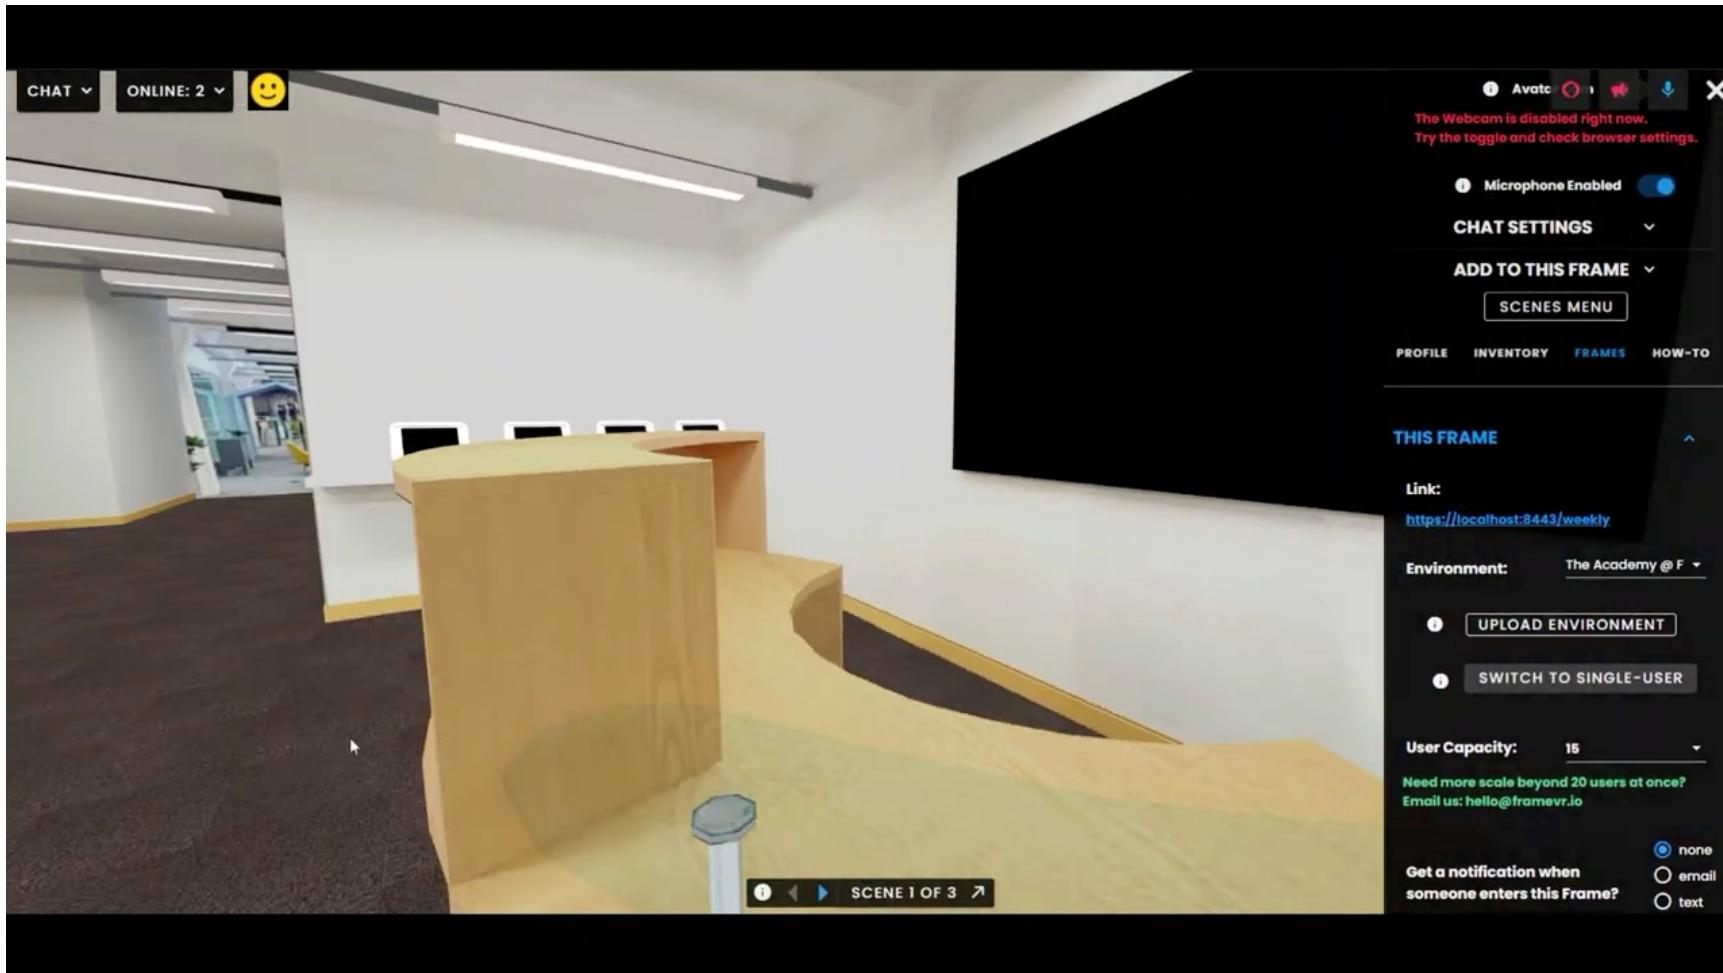

Phase 1b: Umsetzung in 3D

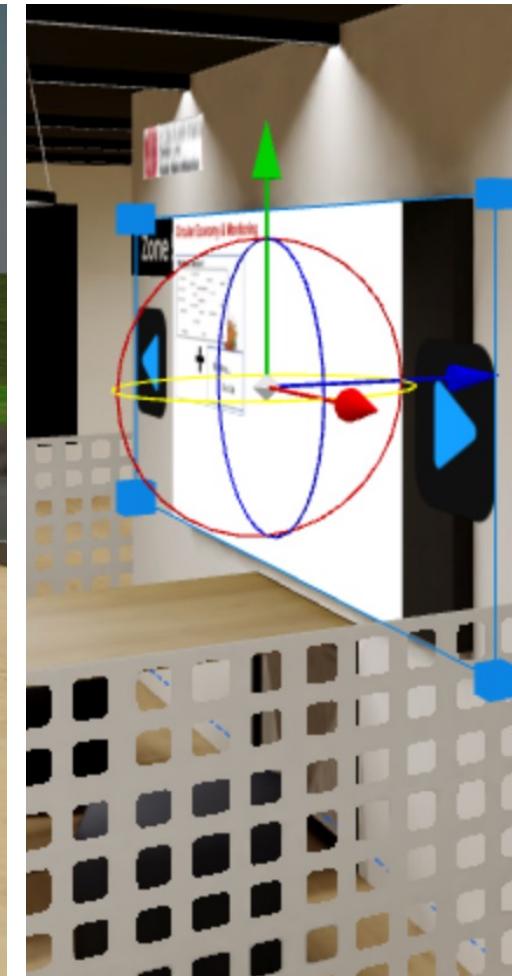

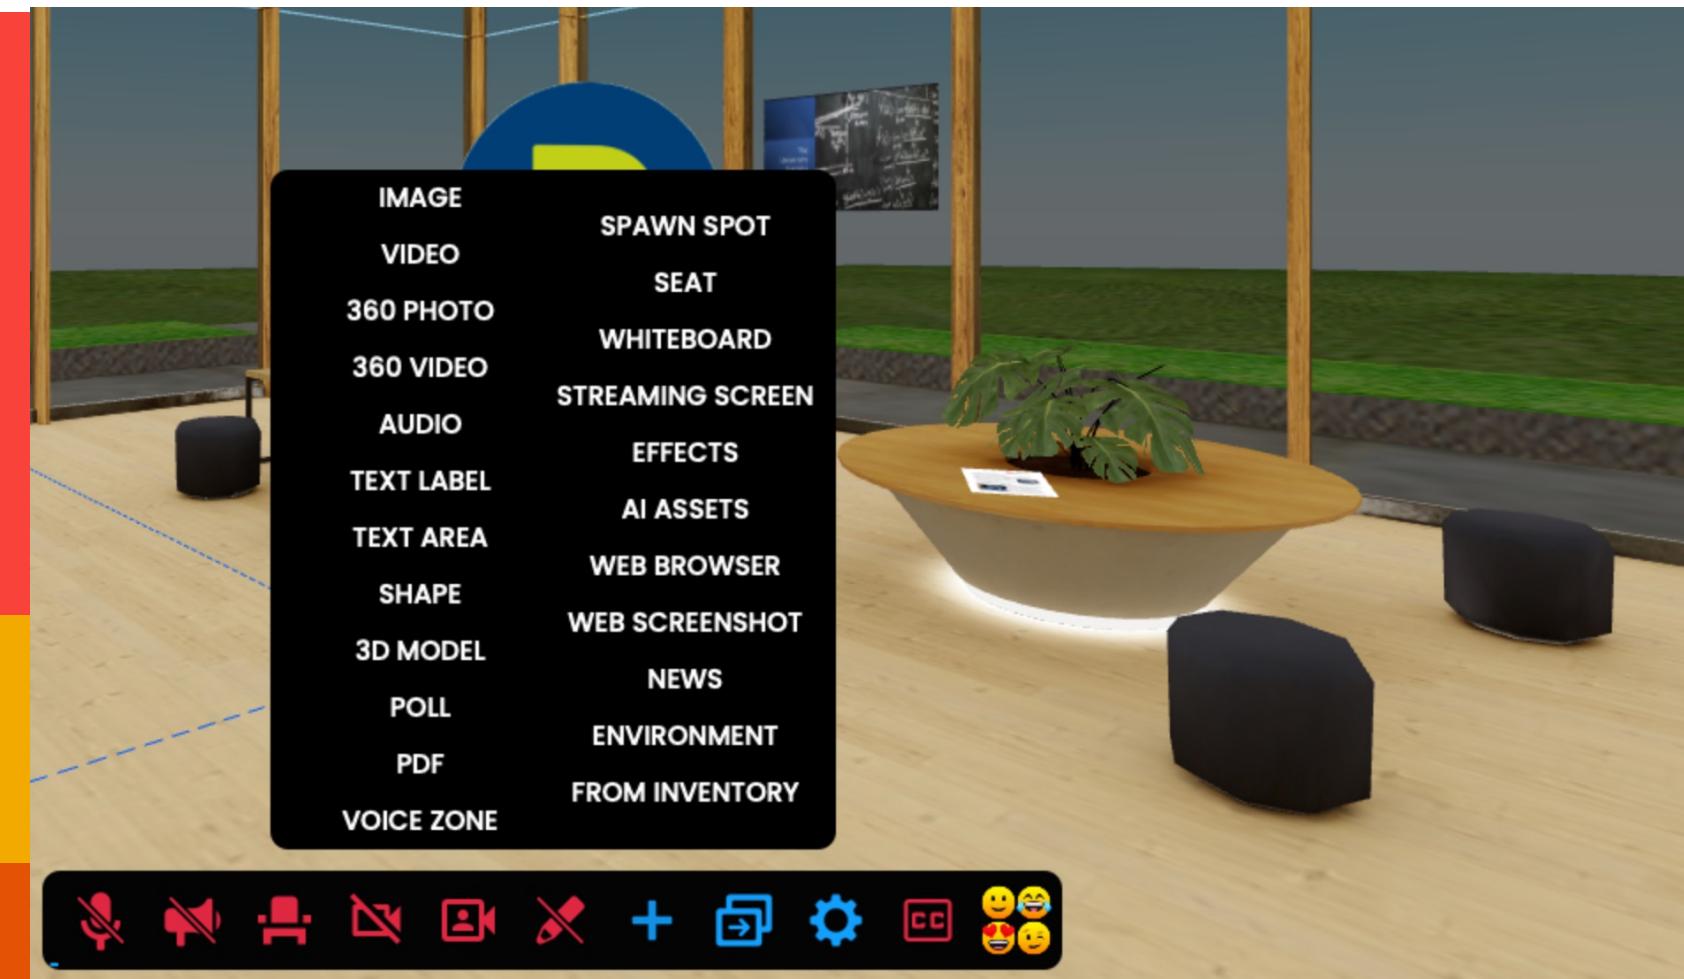

Phase 1c: Import auf eine Metaverse Plattform

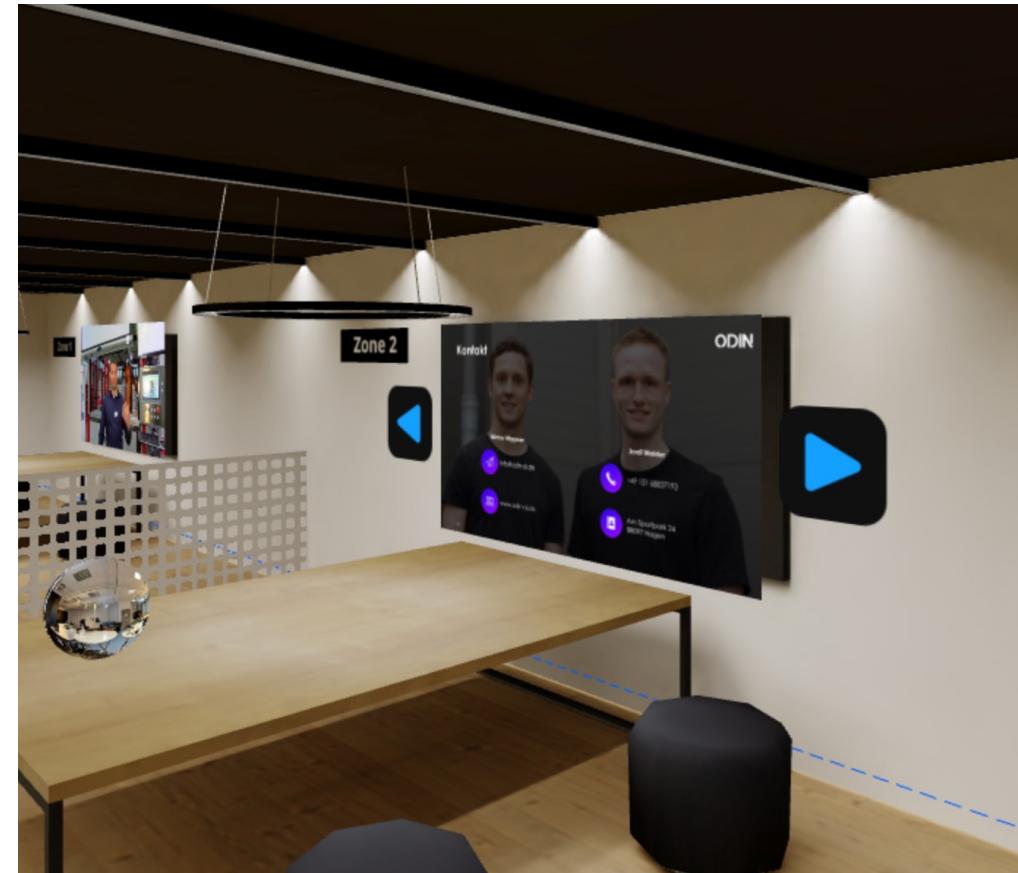

Phase 1c: Import auf eine Metaverse Plattform

Phase 2: Platzierung von Assets

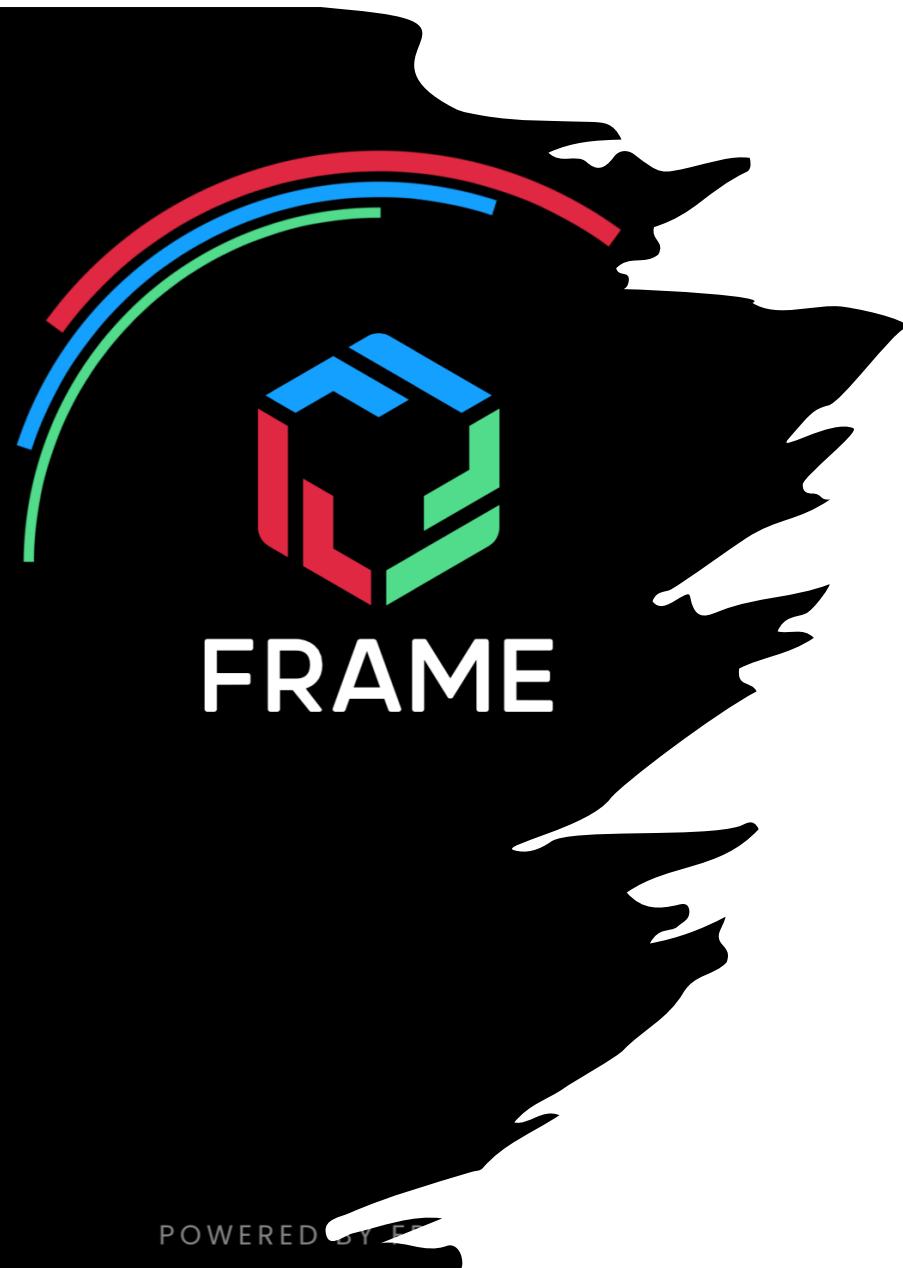

Phase 2: Platzierung von Assets

Avatar Anpassen

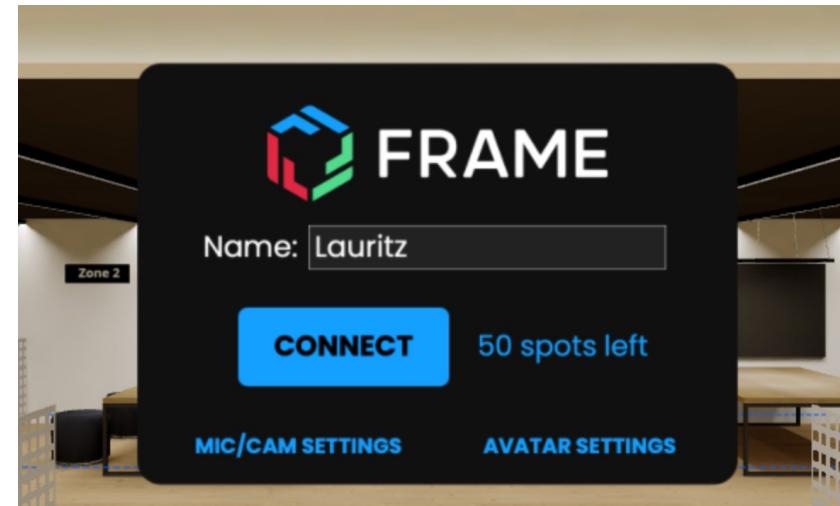

The image shows the 'Ready Player Me' mobile application interface. The left side features a sidebar with navigation options: 'Home', 'Discover Apps', 'Wardrobe', and 'My Avatars'. The 'My Avatars' option is currently selected, indicated by a blue background. The right side displays a grid of six digital avatars, each enclosed in a rounded rectangular frame. Each frame contains a small star icon, three vertical dots, and an 'Edit' button with a pen icon. The avatars represent different looks for the user, including various hairstyles, eyewear, and accessories like a motorcycle helmet and a traditional headdress.

Phase 3: Live Event

Alles ist bereit für ein Event

UE

Live Event

UE

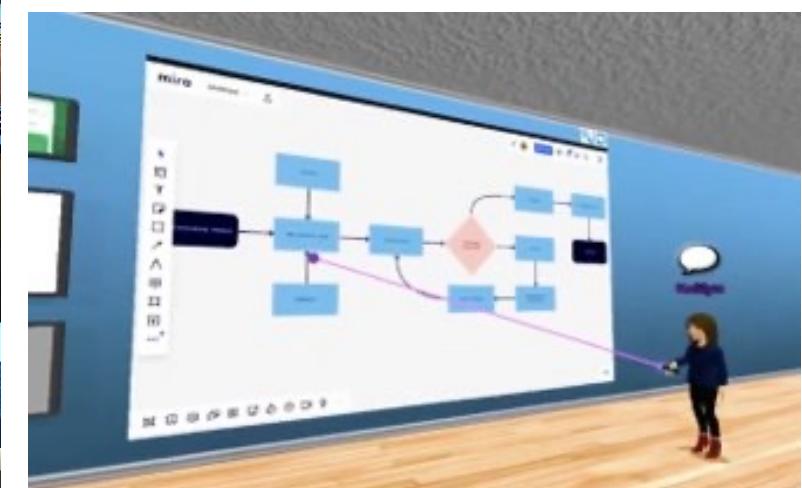

Ausblick

- Einladungs-und Veranstaltungsmanagement
- Zugangsmanagement
- Virtuelle KI Bots für die Bereitstellung von grund-legenden Nutzungsinformationen für das MV.
- Bereitstellung von anpassbaren Sub-Welten(konfigurierbar und einrichtbar durch Backend-Admins)

Academic Use Cases – Live Lectures

- Cross Campus
- Prof. and students interact in shared virtual space
- “real” breakout rooms
- Course content can be spread around multiple walls, rooms, ..
- Many different forms of interactions (compared to ZOOM and real live)

Academic Use Cases – Team Collaboration

UE

- Special rooms for specific tasks
- Preparation of meetings in advance, work in progress
- Open or closed sessions
- AI integration possible (PVA)

UE

Academic Use Cases – Simulation

Videolink

Academic Use Cases – Recorded Interactive Lectures

UE

- Lectures held in the metaverse can be recorded and refined for self-study+
- Building on the experience of instruction designers
- Let's get inspired from the gaming industry :-)

Videolink

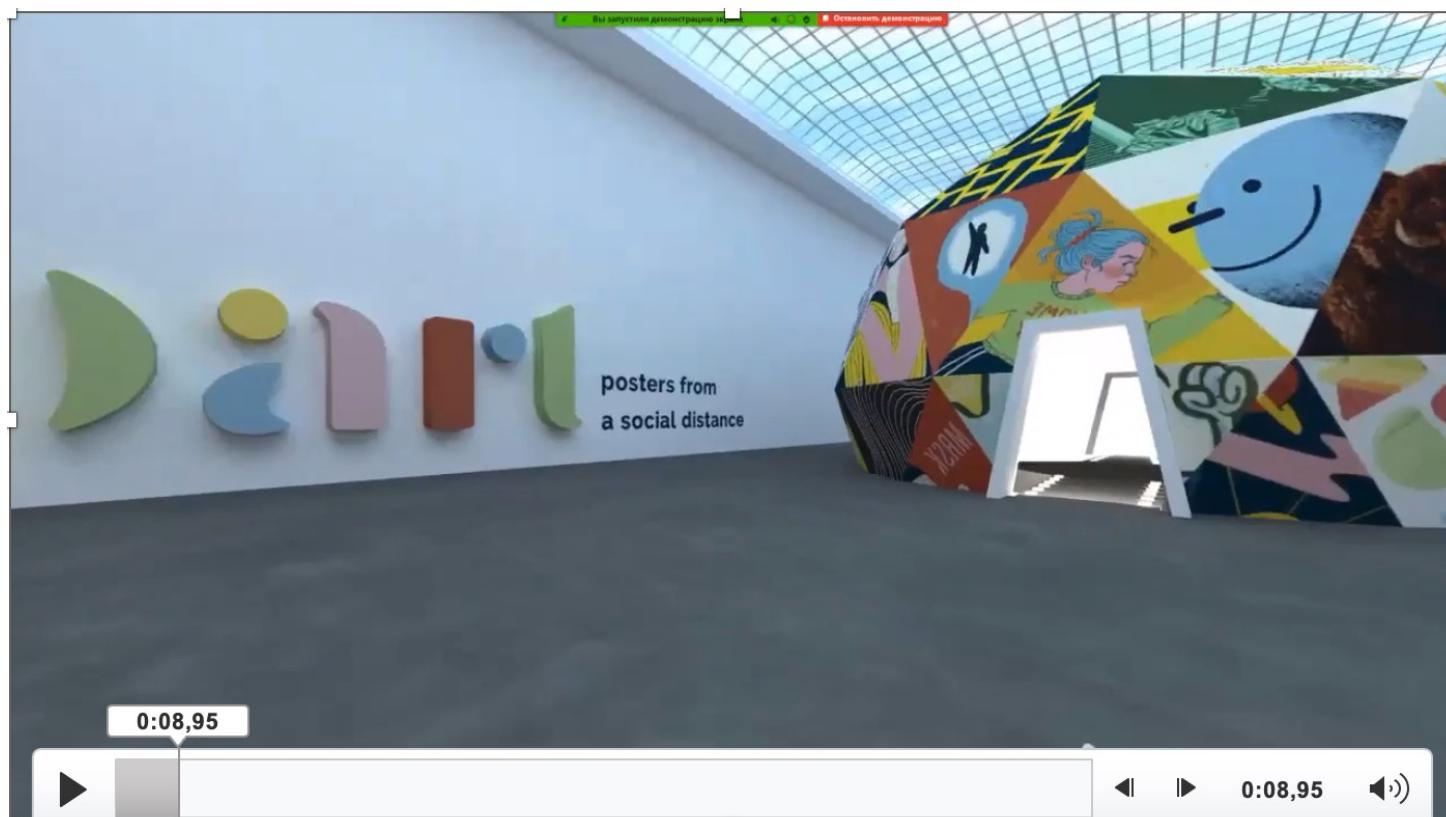

Use Cases – Erstie Days & Graduation

Student Live and Networking

- Stroll around the campus and make chance encounters
- Take part in extracurricular activities
- Go on a museum-, boot-, ...tour with fellow students
- Get off-VR notifications when someone tries to visit you in VR
- design your virtual dorm room
- Regular Exhibitions

Videolink

Student Live and Networking

UE

- Establish open Tutoring groups
- AI powered suggestions find like minded fellow students based on data
- Unlimited space for the students

Student Live and Networking

- Stream live events like a rock concert, jazz jam session, movie premieres, etc. to the auditorium
- Host poetry slams, comedy shows -> participants can enter the stage and become part of the show!
- Let's party in the club on the Virtual Campus Environment

Videolink

Marketing & Sales

1. Virtual Tour

- Invite Leads to a guided virtual tour
- Offer Tours on a regular basis without invitation.
- After the tour, leads could stay on the virtual campus environment and talk to people they meet there.

2. Open House

- On the open day, leads can stroll around and drop in at different live events on the campus.

3. Student for a day

- Invite leads to attend real lectures for a day
